He provides treatments including Pelvis Fracture Treatment Management, Sports Injury Treatment Management, Regenerative Therapy For Joints. He specializes in treating conditions like Carpal Tunnel Syndrome, Sports Injury, Sports Injury Evaluation And Rehabilitation.

3. Why do patients choose Dr. Suresh Kumar B C?

Dr. Suresh Kumar B C is a leading specialist sought after for expertise in Spinal Disc Surgery, Spine Injury, and Neck and Spine Biopsy procedures.

4. What is Dr. Suresh kumar B C's specialization?

Dr Suresh kumar B C specializes in Orthopaedics. He has expertise in treating conditions such as Carpal Tunnel Syndrome, Sports Injury, Sports Injury Evaluation And Rehabilitation. His key treatments include Pelvis Fracture Treatment Management, Sports Injury Treatment Management, Regenerative Therapy For Joints.

5. What are Dr. Suresh kumar B C's medical qualifications?

Dr Suresh kumar B C holds MBBS, MNAMS, D'ORTHO, DNB(Ortho), FISS(SEDUL), FICS(JAPAN), reflecting his comprehensive education in the field of Orthopaedics.

6. What is Dr. Suresh Kumar B C's experience?

Dr. Suresh Kumar B C has seven years of experience in orthopedics.

7. Who is an Orthopedist?

An orthopedist is a medical doctor specializing in diagnosing and treating musculoskeletal disorders. They manage conditions affecting bones, muscles, joints, and ligaments, including arthritis, back pain, sports injuries, and leg/foot pain. Orthopedic care encompasses the entire skeletal system.

8. What is the difference between an Orthopedist and an Orthopedic Surgeon?

Orthopedists manage musculoskeletal system disorders, offering pre- and post-surgical care. Orthopedic surgeons provide identical care but also perform surgical procedures for conditions such as back pain, disc herniation, bone tumors, carpal tunnel syndrome, and arthritis.

9. Does an Orthopedist treat foot and ankle problems?

Yes, orthopedists specialize in musculoskeletal health, encompassing foot and ankle conditions. They treat various issues including bunions, sprains, arthritis, and sports injuries. Diagnosis utilizes imaging, and treatment is tailored to the problem's severity. Orthopedic foot and ankle care provides comprehensive solutions for these common problems.

10. Is a doctor referral needed to see an Orthopedist?

No referral is strictly required to book an appointment with an orthopedist. Appointments can be scheduled directly at the clinic or healthcare center. However, a general physician may conduct a preliminary assessment before referring patients with musculoskeletal issues for specialized orthopedic examination.
