## Overview

Dr. Pranav Jadhav is a senior Pediatric Surgeon at Apollo Hospitals, Pune, with 32 years of extensive experience in managing surgical conditions in newborns, infants, children, and adolescents. He holds an MBBS, MS in General Surgery, and MCh in Pediatric Surgery, reflecting advanced training in both general and specialized pediatric surgical care. Dr. Jadhav treats a wide range of conditions including congenital anomalies, neonatal surgical emergencies, gastrointestinal and thoracic disorders, urological problems, and trauma related issues, along with performing minimally invasive pediatric procedures when appropriate. He is known for his careful evaluations, clear communication, and ability to guide parents through complex medical decisions with reassurance and transparency. His approach is centred on safety, early intervention, and tailored treatment planning that supports faster recovery and long term well being for children. Dr. Jadhav maintains a strong focus on compassionate care, engaging parents in every step of the treatment process and ensuring they feel informed and supported. Fluent in Hindi and English, he communicates effectively with families from diverse backgrounds, making complex information easy to understand. With more than three decades of dedicated pediatric surgical practice, Dr. Pranav Jadhav is

committed to delivering high quality, evidence based, and empathetic care that supports healthier outcomes for young patients at every stage of growth.
